The Vincentian Archives of the Eastern Province
St. John's University

The work done in preparation for the General Assembly of 1980 by the Preparatory Commission, by the Provincial Assemblies, and, indeed, by all the confreres throughout the world, seems to have stimulated a greater interest in our Vincentian heritage. Evidence of this interest may be found in publications of several provinces, viz. the Annales of the Spanish provinces, the Colloque of the Irish province, some articles by the Groupe International d'Etudes Vincentiennes (G.I.E.V.), published in the Vincentiana, and now the Vincentian Heritage of the provinces of the United States. To preserve and promote that interest and to facilitate research of our Vincentian spirit and history, it was suggested that the locations of Vincentian historical and archival material should be made known and available to those who are interested.

The following is an inventory of the Vincentian material preserved by the Eastern Province in the Provincial Archives located at St. John's University.
