13. PROCEDURE
1. Remind the children about the section of their ‘All About Me’ book that shows how unique each of them were. Remind them of some of their differences; (Kayla S. has long straight hair, Juaniajua has short straight hair, Andrew has long braids and Laurence does not have any hair at all). Tell them that we are all different people but in many ways we are the same.) On the chart tape a head cutout for each child responding to each question asked: How many of you have a pet cat? (Five children have cats so tape five heads on chart under cat heading).
2. Display photograph of Tuskegee Airmen. Students will return to tables to open discussion of photograph. Students will write what they see, think and wonder about the photograph. Students will share findings with class.
3. View video: Happy to be Nappy. Students will discuss the similarities and differences in the children in the video.

The Inquiry Cycle:

Connect - Students connect previous lesson on self-awareness and class comparisons. Student will discuss children and staff with different abilities and nationalities

Wonder - Students will discuss which items they think/wonder about when they look at the photograph, the video? Students will write questions/statements answering prompts: I see, I think, I wonder.

Investigate – Students will talk with table partners and discuss birthdays, abilities of family members; interview each other to find out about similarities and differences.

Construct – Generate a theory based on discussions. Students will either confirm or dispel hypothesis about items in photograph. Ex: this picture was taken outside because or was not taken inside because.

Express - Why is it important to work together to get things done? When we work in our math or reading groups will we finish the work if the group mates don’t cooperate?

Reflect – Students will reflect on what they learned about their classmates and discuss the similarities and differences; ask any unanswered questions they may have; write 1 to 2 sentences about something they learned about a classmate, child on video, or staff member, or comment on photograph.

14. Extensions: Students will create a picture of children with different abilities, and genders.

EVALUATION

15. Evaluation: Students will be able to describe similarities and differences of themselves to classmates, students in videos and books. Students will be able to use photograph to demonstrate understanding of importance working together to get a job done.

At the end of the war, sixty-six Tuskegee Airmen died, but 450 were awarded 850 medals.

In 1948 President Truman signed executive order 9981, ending segregation in the armed forces. Although it did happen for years the Air Force was the first branch of the military to segregate, this was due to the great work of the Tuskegee Airmen.
